DECLARATION OF ANDREW BEVERIDGE

ANDREW A. BEVERIDGE, under penalty of perjury makes the following declaration:

1) I am a Professor of Sociology at Queens College and the Graduate Center, City University of New York. My primary responsibilities at the College and Graduate Center are teaching statistics and research methods at the graduate and undergraduate level and conducting quantitative, statistically-based social research. In July 2006, I assumed a three-year term as chair of the department and began a second term in July 2009. Trained at Yale University, I have been a professor since 1973, first at Columbia University until 1981 and since then at Queens College and the Graduate Center of CUNY. My areas of expertise include demography, the statistical and quantitative analysis of social science datasets, most particularly including Census data, survey data and administrative records. I am an expert in the application of Geographical Information Systems (GIS) technology to the analysis of social patterns. I regularly publish results in professional journals and peer reviewed books. Some of my analyses have served as the basis for articles in the *New York Times*, where I serve as a demographic consultant through an agreement between Social Explorer, Inc., the CUNY Research Foundation and the *Times*. I have served as a consultant to a number of public and private entities, where I provide services related to demographic analysis.

Caldwell*, Eastern District of Louisiana (Declaration 2006); *U.S. vs. Darryl Green, et al.* Eastern Division of the District of Massachusetts (Seven Declarations and Trial Testimony 2004-2006), A more complete list of cases and other matters in which I have provided opinions are listed in my résumé, attached as Exhibit 1.

3) I have been retained by the Center for Law and Social Justice, Newman Ferrara LLP, and Frederick Brewington, counsel for plaintiff intervenors in the case *Favors et al., v. Cuomo, et al.*

4) I was asked to analyze the extent to which the plans enacted by the New York State Senate and Assembly dilute the voting strength of minority citizens of Nassau County, most particularly African American and Hispanic citizens. I was also asked to see if Senate and Assembly districts could be created that were less dilutive, and to propose less dilutive districts.

5) I had access to the adopted Senate and Assembly Plans in the form of block equivalency files. I used Maptitude for Redistricting to help assess the dilutive nature of these plans. I used both the PL-9417 released data as adjusted by LATFOR, as well as the Citizens of Voting Age tabulation released on February 9, 2012 on the Census Bureau Website at www.census.gov/rdo.

6) In addition, I had access to various reports that were done related to voting analysis and communities of interest by Professors Robert Smith and Michael McDonald of Baruch College and Binghamton University respectively that directly focused on the areas that have substantial compact concentrations African American and Hispanics of voting age for use in the case *Boone, et al. v. Nassau County Board of Legislators*. I also testified in that case.

7) Also shared with me were analyses related to recent elections for Nassau County Board of Legislators produced by Matt Stevens working for the New York State Senate.

8) I have had substantial experience analyzing residential patterns in this area of Nassau County, as I was a plaintiff's expert in *Goosby v. Town Board of Hempstead*, and also testified for the plaintiff's in *Rodriguez v. Pataki*. The area at issue is virtually identical with the area I analyzed in the case *Boone, et al. v Nassau County*

Board of Legislators.

9) The analysis presented here is preliminary due to time constraints. I will revise and supplement this declaration at a later date. Nonetheless, my basic conclusions are unlikely to change based upon further analysis, since they are based on the distribution of population and voters in one area in Nassau county, which I have analyzed numerous times in the past..

10) The adopted assembly plan concentrates the African American in one district (District 18). That district has a composition of 60.85 percent non-Hispanic Black Citizens of Voting Age (CVAP) and 79.74 percent of Hispanic and non-Hispanic Black CVAP combined. See Exhibit 2.

11) As Exhibits 3 and 4 show, the adopted plan splits portions of this community of interest into five districts: 13, 15, 18, 21 and 22. This serves to dilute the voting strength of the African American voting age citizens and the Hispanics and African American voting age citizens together.

12) I was able to create two proposed districts which reunite these communities of interest and have majorities of African Americans citizens of voting age in each of two districts (50.8 and 50.9 percent). It also has a substantial majority of Hispanics and African American Citizens in these same two districts (69.9 and 66.3 percent). The proposed districts are shown in Exhibit 4.

13) As Exhibit 3 and 4 also show, only District 18 has a substantial concentration of African American citizens of voting age or African American citizens of voting age combined with Hispanics, so the current lines serves to “crack” and “pack” the African American community.

14) Based upon my reading of the materials submitted in *Boone v. Nassau County Board of Legislators* and the recent voting analysis done of the last Nassau County Board Election that occurred in November 2011, I have no doubt that these two districts would allow African Americans to elect a candidate of choice in each districts.

15) A similar cracking or splitting of the Hispanics and African American citizens is found in the adopted Senate plan. No district has a majority of Non-Hispanic Black and Hispanic Citizens of Voting Age. See Exhibit 5.

16) Here the Hispanics and African Americans areas are split into four districts: 6, 7, 8, and 9, as is shown in the Exhibits 6 and 7. This serves to dilute the voting strength of the African American citizens and the Hispanics and African American citizens together.

17) The proposed district has an African American CVAP of 40.1 percent and a majority of Hispanic and African American CVAP of 56.6 percent. In short, this proposed district reunites this community of interest.

18) Based upon the analyses done by Michael McDonald in the *Boone* case, as well as the analyses by Matt Stevens of the recent Nassau Board election, I have no doubt that this district will perform and produced a candidate of choice of the African American community coalescing with Hispanics, who have settled near African Americans.

19) The proposed Assembly plan deprives African American voters and African American voters allied with Hispanics of their ability to elect their candidates of choice in two districts. Rather, the current configuration “packs” those voters into one district, while splitting the remaining members of the group among several districts.

20) The proposed Senate plan deprives African American voters allied with Hispanics of their ability to elect their candidate of choice in one Senate district. Rather, the current configuration “cracks” the voting strength of those voters among several districts.

21) Base upon this analysis, it is my opinion to a degree of scientific certainty that the current Senate and Assembly plans each deprive minority voters of their right to chose one candidate of choice in both the Senate and the Assembly.

The foregoing statistical reporting is based upon my experience and qualifications as a social science and statistical data analyst utilizing data from the sources indicated.

Respectfully submitted,

A handwritten signature in cursive script, reading "Andrew A. Benridge".
